Hardin Design & Development
30 W Mifflin Street #406
Madison, WI

Web Application Developer

Hardin Design & Development (hardindd.com) is seeking web application developers to join our creative staff. We specialize in building media campaigns for major entertainment companies like Mercedes, Disney and Warner Brothers using a myriad of Web 2.0 technologies like Flash, Flex, AJAX, the Facebook API, and the iPhone SDK. If you want to be part of a fast-paced, agile environment building exciting software, then we want you! We have downtown offices on the corner of Mifflin and State Street. Most employees are UW-Madison or MATC graduates. We are seeking candidates who fit the following profile:

Baseline Skills:

HTML
CSS
PHP
MySQL

Additional Skills:

Flash
Flex
Objective-C
ASP.NET
JavaScript

If you're still a student, feel free to apply. We take both full time and part time employees, and offer competitive pay rates and benefits packages. Please contact Scott Resnick at resnick@hardindd.com with your resume.
