

## JOB ANNOUNCEMENT

### Graduate Student Hourly Computer Programming Opportunity with NSF Center on Campus

The NSF-funded Center for Nanotechnology in Society (CNS) seeks to hire a graduate student to oversee some computer programming needs associated with upcoming online experimental research. Responsibilities will include technical support for constructing a local web environment and integrating this environment with various databases.

The position will pay the maximum hourly graduate student rate (\$19 per hour) and is available immediately. The hours are flexible and will vary with project demands. The candidate will be expected to attend some meetings with project personnel. Interested candidates should contact Dr. Dietram Scheufele, [scheufele@wisc.edu](mailto:scheufele@wisc.edu).
