

Position: Web Developer/Programmer

Open: until position is filled. Start and end dates are flexible.

Employer: Employment Resources, Inc.

Location: 4126 Lien Road, Madison, 53704

Salary: Starts unpaid. Payment possible based on project/experience.

Description: Employment Resources, Inc. (ERI), a Madison area non-profit, seeks a highly motivated, flexible, and innovative intern to assist in the development of interactive website components. Responsibilities will include developing PHP/MySQL back-end applications, integrating with external web services, and designing clean, engaging HTML/CSS-based user interfaces. The position will schedule 10-15 hours per week around the student's academic schedule. Personal skills necessary for this job include: creative thinking, problem solving, self-motivation, and strong organizational skills.

ERI practices and promotes innovative services that advance employment opportunities, support personal choices, and enhance the well-being of individuals with disabilities across Wisconsin. Accessibility is key in all of our web projects. ERI is an Equal Opportunity Employer.
