2015 Entry-Level Information Technology Software Developers

Working at Liberty Mutual Insurance in the Information Technology division will give you the opportunity to work on exciting and emerging technologies. You will also work with great people, many of whom are leaders in their technology fields. You’ve made a significant effort in your education and we’re dedicated to doing the same for your career. You’ll have a chance to leverage your abilities with immediate responsibility, stimulating work, and the opportunity to grow and be recognized for your contributions.

One of the core principles underlying Liberty Mutual’s IT organization is to design, engineer and deliver efficient, reliable, quality, lean and cost-effective solutions for our business clients.

As a software developer, you will analyze, design, code, test and debug new software, or make enhancements to existing software from general requirements and specifications. Many languages (Java, C++, C#, etc.) and platforms are utilized in various project work. Software projects range from developing front and back-end solutions, as well as building customer facing mobile and web applications.
