About Ascava Inc
Imagine a company capable of dramatically improving the efficiency of the foundational layer of the digital economy - data storage and retrieval. A company founded and led by serial entrepreneurs with a proven track record of success in startups. A company with an exceptional team of technologists, architects, and engineers. A company that will have a huge impact on the industry.

Welcome to Ascava!

The company, located in the SF Bay Area, has made an important breakthrough in the field of data analysis, data reduction, and storage. We are looking for a few software engineers who will drive the development of the overall system that takes advantage of this new technology. This is a unique and rare opportunity to get in on the ground floor and help shape the technology, product and the business.

Software Engineer (full time position located in Los Altos, CA)
Job description
• Participate in the development & verification of an innovative data analysis & storage system.
• Participate in processes essential for delivering a robust product. Work with engineering management to ensure design and development is on track and quality metrics are adhered to.

Qualifications and expectations for Software Engineer
• A solid foundation in computer science (MS in Computer Science required, PhD a plus, BS considered), with strong competencies in data structures, algorithms, software design, and verification techniques
• Industry experience in software development and verification desired
• Expertise in C programming is required. One or more class projects requiring significant software design and coding is required. Experience in performance optimization is desired
• Exposure to storage stacks & systems, file systems, virtualization, database architectures, data analytics, and distributed computing is preferred
• Strong analytical skills combined with a disciplined, systematic approach. Emphasis on results at high quality in a fast-paced environment.
• Excellent interpersonal and communication skills, good team player.
• Availability to start immediately

Interested candidates are encouraged to submit resumes to rajesh@ascava.com by June 19, 2015
