Student Job (Great Lakes Bioenergy Research Center (GLBRC))

Job Title: Assistant LIMS QA Tester

Pay Rate: $11.00/hour

The Great Lakes Bioenergy Research Center (GLBRC) has an opening for a LIMS QA Tester within our Laboratory Information Management System (LIMS) development team. This job requires a 1st or 2nd year student from Computer Science. Students from other science majors may also be considered if they have working knowledge of computer applications and lab workflows.

Full-time is expected in the summer.

Responsibilities:

- Assist the LIMS team and QA team to perform LIMS testing on staging server based on the system requirements and specifications.
- Write test plans and test reports before and after QA testing process.
- Set up tickets for issues and bugs discovered in QA testing.
- Test new and enhanced applications and modules as required within the expected timeline.

Other Skills:

- Enjoy working with others in a team atmosphere
- Positive, can-do working attitude
- Willingness to complete tasks in a timely manner
- Good listening and communication skills

If you are interested in this position, please send your application and resume to Ying Gao, GLBRC LIMS Lead (ygao@glbrc.wisc.edu).
