Description
Would you be interested in working at a research center on campus that is developing innovative health systems to help people going through serious health challenges? The Center for Health Enhancement Systems Studies is looking for a motivated student to join its technical team.

You can gain real world experience by assisting with the design and development of websites to support study participants. Our current projects focus on aging and addiction recovery support.

Qualifications
Applicant must be proficient with HTML, CSS and have some experience with Javascript. She or he must be willing to learn programming languages as necessary and have programming experience in one or more of the following languages: C#, Visual Basic, Java, PHP, C, C++, SQL, Python

Hourly rate ($10-$15) will correspond with experience. Applicants must be currently enrolled in UW-Madison and preferred to have a computer science or website design background.

Position includes flexible hours to accommodate class schedule. Applicant should be able to devote 10 - 20 hours per week during regular office hours, Monday through Friday, between 8:30AM and 5:00PM.

To Apply
Please email cover letter and resume to Adam Maus at adam.maus@chess.wisc.edu. If you have designed or developed a website or mobile app please include that information as well.
