Carleton College invites applications for visiting positions in computer science, in any area of specialization, for one or more trimesters during the 2015-2016 academic year. A Ph.D., or significant progress towards one, is required.

Carleton is a highly selective liberal arts college with outstanding, enthusiastic students. We seek equally enthusiastic computer scientists committed to excellence in teaching, curriculum design, ongoing research, and undergraduate research advising. We are particularly interested in candidates committed to teaching a diverse student body. The appointees would be expected to teach courses at a range of levels, from the introductory level to advanced undergraduate electives.

Carleton’s Department of Computer Science (http://cs.carleton.edu) includes eight faculty and an experienced full-time system administrator, and typically graduates between 25 and 60 majors annually.

To apply, please visit the Carleton College website at http://jobs.carleton.edu and complete the online application, including a cover letter, CV, brief statements describing teaching philosophy and research agenda, a graduate transcript, and contact information for writers of three letters of reference (at least one of which should address your teaching). Questions about the position or the application process may be directed to csjobs@carleton.edu.

Applications will be considered on a rolling basis until the positions are filled.

Carleton is committed to developing its faculty to better reflect the diversity of our student body and American society. Women and members of minority groups are strongly encouraged to apply. Carleton College does not discriminate on the basis of race, color, creed, ethnicity, religion, sex, national origin, marital status, veteran status, actual or perceived sexual orientation, gender identity and expression, status with regard to public assistance, disability, or age in providing employment or access to its educational facilities and activities.
