

Software Engineer at ABODO

Madison, WI

www.abodo.com

We're ABODO.com, a venture-backed, Madison, WI startup with the mission of finally making apartment hunting effortless. Over the next couple of months we'll be experiencing rapid growth and you will be a part of bringing ABODO from a good regional site to a great nationwide player.

We're currently recruiting for a talented team member to be a part of our growing development team. As a software engineer, you'll be responsible for all stages of the product development lifecycle including but not limited to, design, testing, implementation, and deploying. Versatility and passion is a must as we'll look to you to tackle new problems as we continue to push our product forward. Within this position you'll have the ability to express your opinions and ideas; directly affecting the product.

As a full-time employee, our 9th, you'll also have the chance to get in on the ground floor of our growing company. You'll work directly with the CTO and other members of the product team to accomplish our core goal: make something people want.

Desired Experience

- Bachelor of Science in Computer Science or related field
- Ruby on Rails
- Mobile development

Desired Skills

- Rails
- jQuery
- Handlebars
- Chef
- MySQL
- Git
- Amazon Web Services (mainly RDS and Opsworks)

Benefits and Perks

- Competitive salary and stock options
- Laid back work environment
- Open vacation policy – take time off as needed on your own schedule
- Casual Dress Code
- Office location in downtown Madison
- Vibrant, enthusiastic company culture

Please contact kristen@abodo.com with resumes and inquiries by May 15th, 2014.
