EDI Programmer/Developer, Madison, WI
Application Deadline: May 31, 2015
E-mail resume and cover letter to: susan.model@ebcflex.com

At Employee Benefits Corporation, we make administering our tax-advantaged products easy for clients. We design our administration software to help us meet our unique client needs. **We are 100% employee-owned**, which means each of us shares a stake in our success. Each of us has the opportunity to make an impact and a difference. We’re a growing company and each of us is encouraged to grow, too.

Our employee owners work best in a comfortable environment and we provide a friendly atmosphere, a casual dress code and an open door policy. We can take advantage of adjusted work schedules, flex work weeks and generous paid time off.

We’re currently recruiting for a supervisor for an EDI Programmer. This position is open due to growth in our business. The EDI Programmer is responsible for the implementation and support of electronic data exchange processes with new and existing clients and third party service providers. On a daily basis, this position performs technical and data analysis to ensure the integrity of data while maintaining a high level of responsiveness to customer service inquiries and business needs. This position will define and manage continuous improvement projects and client implementation for data exchange processes; create and deploy ETL packages using Microsoft SQL Server Integration Services; participate in cross-departmental report requirement and definition process; identify, research communicate and resolve data and processing exceptions; triage and coordinate daily production activities that support data exchange partnerships; maintain and report key metrics in support of service level agreements; and complete other project work as assigned.

Qualified candidates will have a Bachelor's degree or equivalent in Information Systems or related field and/or equivalent work experience. Candidates should have a minimum of 3 years of experience querying, manipulating, and transforming data using Microsoft SQL Server. In addition, candidates should have a working knowledge of VP.NET and/or VBscript as well as FTP and file encryption technologies. An understanding of SSIS and Powershell is a plus. This position also requires strong analytical, problem solving and communication skills as well a keen attention to detail and a high level of professionalism.

We offer competitive compensation and a comprehensive benefits program that includes:
**Benefits**

Employee Stock Ownership Program

401(k) program with company match

Health, Dental and Vision Insurance

Health Reimbursement Arrangement

Health and Dependent Care Flexible Spending Accounts

Short and Long Term Disability

Life and AD&D Insurance

Employee Assistance Program

Paid Time Off

Holiday, Bereavement and paid leave for new parents

Training and Education Reimbursement

Referral Bonus Program

Casual Dress

If this opportunity sounds exciting to you and you want to become an owner in a growing organization, please submit your resume to susan.model@ebcflex.com.
