Quality Assurance Engineer- Full Time

Job Description

HealthMyne is seeking highly motivated and bright individuals to fill a position in Quality Assurance (QA) in a fast-pace working environment to help HealthMyne in providing the highest quality software that exceeds both customers’ requirements and satisfies FDA regulatory requirements. The individuals will work closely with the development team in understanding customer requirements, developing and executing test plans, building and maintaining testing infrastructures. We are looking for an entry-level/junior QA person to join our team.

Skills & Requirements

Minimum Required Skills:

- Experience with the Verification and Validation process
- Knowledge of Windows Operating System and iOS
- Experience in a medical, medical device, or regulated industry
- Good communication skills

Additional Desired Expertise:

- Experience of automated testing framework
- Experience with Continuous Integration (CI)
- Experience with Regulatory Affairs (RA)
- Some programming skills in scripting languages such as Python and Perl
- Experience with AWS or similar cloud-infrastructure

Additional requirements:

- Candidates must be authorized to work in the U.S.

To Apply
