Hyla Soft Inc. is an IT consulting firm specializing in providing superior manufacturing IT solutions to some of the worlds most recognizable manufacturing and engineering enterprises. Hyla Soft is on the vanguard of development and deployment of software for production environments. On a daily basis, our consultants and developers are pioneering new ways to improve production efficiency in Food and Beverage, Automotive, Aerospace, Oil & Gas, Pharmaceutical, and other industries.

Hyla Soft has U.S. headquarters in Chicago and European headquarters in Genoa, Italy with branch offices in Troy, MI; Portsmouth, NH; Turin, Italy; Naples, Italy; Madrid, Spain; and Sao Paolo, Brazil.

Job Description

General Qualifications:
• Bachelors in Computer Science, Information Systems or related field
• Confident abilities in object oriented programming in Java, C#, or similar languages
• Solid understanding of database systems and SQL
• Ambitious, independent self-starter

Description:
Hyla Soft USA is seeking a full-time Analyst Programmer in its Chicago, IL and Troy, MI offices. This position offers experience throughout the entire software development life cycle while working directly with some of the biggest manufacturing enterprises in the world. In this position, candidates will engage customers to determine software needs, design and develop appropriate solutions, and assist in the deployment and support of Manufacturing Execution System and Product Lifecycle Management solutions.

Duties:
• Engage clients to determine business needs and appropriate software solutions
• Design and develop solutions appropriate to customer needs
• Deploy and support solutions at manufacturing facilities
• Train plant personnel on use of new solutions
• Debug and fix existing solutions
• Integrate legacy systems into new platforms

Skills

Required Skills:
Experience in Software Development
C# or Java programming capabilities
HTML and JavaScript
Microsoft SQL, MySQL, or Oracle

Desired Skills:
Experience in multi-user and/or manufacturing applications
Familiarity with MES, PLM, ERP, or PLC systems such as Simatic IT, Teamcenter, SAP, Simatic S7, or similar technology.
Experience in customer-facing roles and client interaction.

Benefits
• Health, Dental, Vision, 401K, Flexible Spending Account, Life Insurance, Direct Deposit, Paid Holidays, Personal Time, Vacation
