Job Opportunity: Website Developer

Company: Dougherty Forestry Mfg.
Start Date: June 1st
Deadline: August 1st.

We are seeking a website designer/programmer who can help us develop a unique website (from the ground up). This site is independent of our company website, and it will be a social media website that emphasizes particular elements unrepresented in the current market. This job opportunity will require working from home between 20-40 hours per week.

Responsibilities of the Website Developer include:

• Using Open source (Linux, Ruby, MySQL, Graphite), Cloud, and Microsoft technologies (ASP.NET, ASP.NET AJAX, VB.NET, C#.NET, Microsoft SQL Server)

• Staying abreast of industry tools and best practices for application performance and web-based integrations

• Interfacing with project managers and other technology teams to gather requirements, implement solutions

• Monitor application utilization trends to address performance bottlenecks and candidate delivery issues

Requirements:

• Minimum of a Bachelor’s degree in Computer Science or related field.

• 1-6 years experience preferred

• Ability to code in at least one scripting language (Ruby, Javascript, etc.)

• Strong written and oral communication skills

Specialized skills required for this job:
This job requires working knowledge and skills in configuration and deployment of web applications including database design, web base scripting languages and web standards. Additionally, skills in presentation, customer service and problem solving are required.

Specialized skills preferred:
Working knowledge of and experience in building, implementing, and maintaining web-based business applications, managing website content through specialized content management systems, and adhering to best practices and usability standards.

Excellent verbal and written communications skills; may require applicable computer skills including standards-based XHTML and CSS coding; knowledge of programming languages including PHP, XML, HTML5, and CSS3. Working knowledge or experience with backend web technologies and web server administration is preferred.

How to Apply: Please forward resume to Marshall Dougherty at marshall@doughertymfg.com
