Company Name: LaunchPad Software, LLC

Address: 701 Main Street South East Suite: 318. Minneapolis, MN 55414 United States

Website: http://launchpadsoftwarellc.com/index.html

Position Available: Partner/Software Developer

Degree: Undergraduate or Graduate

Job Description/Duties: LaunchPad Software, LLC is a tech startup based in Minneapolis, MN. We primarily develop our own apps for smartphones and do freelance work for others. Our work has been expanding and workload as well with it. As a result, we are looking to hire on another partner/software developer to help our company grow.

The tasks will vary somewhat for programming abilities, but below are some listed basic qualifications.

Experience/ Knowledge in iOS and Objective C
Experience/ Proficiency with Cocoa Touch
Hardworking
Self-sufficient
Innovative

Please reach out to johnallis@launchpadsoftwarellc.com for further inquiries about the position.

Hours Per Week: Flexible

How to Apply: We have some skills required and would just need a résumé from the applicants before we approve and have interviews with them. One would be a short phone interview to understand their goals & ambitions and why they want this job. The other interview would be more in-depth and to test their programming ability.

Timeline to Apply: 03/10/2015 start recruitment. 06/14/2015 application deadline. We will cancel job posting if we find an employee before deadline.

Positions Available: One
