**Operations Internship**

Paid Internship  
Start ASAP  
15-20 hours a week (Ideally mornings)  
Downtown Madison Office

Rapidly growing SAAS company is looking for an operations intern who will be graduating in 2014.

Candidate must be wildly ambitious, highly responsible and a “morning person”. You will wear many hats so you should be very comfortable conquering things you’ve never done, asserting yourself. You will be trained, but you should be comfortable applying what you learn.

**Requirements:**

- Computer science or engineering degree preferred.
- Some practical work experience and coding skills (Zend framework or other PHP understanding a plus)
- Strong skills in PHP, mySQL, JavaScript, JQuery, DOM structure, JSON
- Working understanding of
  - How systems integrate
  - Database architecture
  - Server administration

**Company Description:**

Internship contact: Ann Dunaway, [adunaway@mypaynet.com](mailto:adunaway@mypaynet.com)
