Let’s build something.

Submission Deadline: June 30th.

We are building an exciting new application for truck drivers to use within the logistics industry, and are looking for summer interns to use their creativity and skills to contribute to our company.

The hours and times are flexible. A minimum of 5-10 hours a week is required. We are located this summer on the corner of State Street and Frances Street. Undergraduate and Graduate students are both welcome to contribute.

The following will help but is not necessary.

- Strong knowledge of Android SDK, different versions of Android, and how to deal with different screen sizes.
- Experience using Gradle, Firebase, SQLite, GCM, Crashlytics or similar is a plus.
- Basic understanding of front-end technologies and platforms, such as JavaScript, HTML5, and CSS3
- Outputting data in different formats
- An appreciable sense of good UX
