Computer Science Internship
SHINE Medical Technologies – Monona, Wisconsin

SHINE is immediately seeking a Computer Science major for an internship opportunity. The role will be responsible for working with department owners to enhance existing functionality and develop new features for existing and potentially new databases. It is expected that the candidate will write clear, concise and well-structured code with applicable documentation. The role is intended to work 40 hours per week during the Summer of 2016.

We are seeking candidates who have high level language skills and are completing college level coursework in a Bachelor's degree program in Computer Science or related field of study. It is highly desirable to identify candidates who have prior experience developing databases (e.g., Sharepoint).

Eligibility for employment is conditioned on the applicant's ability to qualify for access to information subject to U.S. Export Controls regulations (U.S. Citizen, U.S. Permanent Resident, Asylee or Refugee). Also, applicant's eligibility may be conditioned based upon meeting the Nuclear Regulatory Commission requirements for access to Safeguards information which typically requires pre-employment drug test, fingerprinting, and a criminal background check.

To apply, please send a cover letter and resume including salary requirements to careers@shinemed.com or apply online at http://careers.shinemed.com/jobs/computer-science-internship/
