Web and Mobile Developer

The University of Wisconsin-Madison Department of Obstetrics and Gynecology is a vibrant and growing department dedicated to the health and wellbeing of women and their families in Madison, the state of Wisconsin, and beyond. We are seeking enthusiastic colleagues to help us pursue our missions of excellence in patient care, education, research, and outreach and are currently seeking a Web and Mobile Developer to join our IT Team.

You will be helping to bring to life software-based solutions in support of the research, education and administrative needs of the department. These applications require varying levels of interaction and integration with existing information systems infrastructure including research and clinical databases. The responsibilities will include the creation of web and mobile applications from the consideration, discussion and planning stages all the way through to programming, testing, deployment, maintenance, and support. The incumbent will meet with faculty and staff (researchers, educators and business application stakeholders) to determine needs and solution requirements. The Web and Mobile Developer will architect and build well-tested, well-documented applications to meet requirements and provide ongoing support, training, documentation and iterative updates and improvements to existing applications as needs arise.

Bachelor's degree required. Computer Science, Software Engineering or related field strongly preferred.

Relevant qualifications:
- Knowledge of computer science, concepts, terminology and their applications including algorithms, optimization, data structures, programming languages, database-driven web technologies and emerging mobile development patterns
- Experience with .NET, C#/VB, MVC, JavaScript, HTML, CSS, SQL, LINQ, etc.
- Experience working with a relational databases (Microsoft SQL preferred)
- Experience with working in a Microsoft environment (Windows 7 and 8, Microsoft Office including Word, Excel, Access, PowerPoint)
- Ability to work independently and collaboratively within a diverse team of IT, media, and communication professionals.
Submit your cover letter and resume to: Beth Koerber, HR Representative; koerber@wisc.edu. For additional information regarding the position:

UW-Madison is an equal opportunity/affirmative action employer. We promote excellence through diversity and encourage all qualified individuals to apply.
