Java Developer (Madison Office)
Technology today is more prevalent than ever and to ensure Sentry Insurance remains strong and vigilant we are seeking Java Programmers to become members of our Application Development team in Information Technology (IT). Our IT area is comprised of 750 associates whose objective is to provide leading information, data processing, communications, process enhancements, and systems to support the business and management activities of Sentry.

What You'll Do
As a Java Programmer Analyst for Sentry Insurance you'll design, code, test, debug, document and maintain programs and systems: In addition, as part of our innovative IT team you’ll:
- Participate in the identification and development of program and system specifications
- Provide input on cost analyses, systems and program design, testing, and maintenance and documentation of new and existing systems
- Respond to system errors, formulate solutions, and change/repair the system to avoid interruptions to users

What it Takes
- Java programming experience
- Bachelors Degree in Web Development, Computer Science or related fields
- Eligible to work in the United States
- System integration experience is highly desired
- The ability to learn new technologies independently
- Experience with some or all of the following technologies is highly desired; Java 6/7 Development, Eclipse IDE, Struts 2 Web Development Framework, Javascript/JQuery Client-Side Scripting, Hibernate ORM Framework, SQL Server 2008, JUnit Unit Testing, JAX-WS Web Services, Service-Oriented Architecture

What You'll Receive
We offer an outstanding array of benefits for our associates, including:
- Competitive Compensation
- Group Medical, Dental, Vision and Life benefits
- Generous Paid-Time Off - including Company Holidays
- 401k plan with a dollar-for-dollar match on your first six percent – immediate vesting
- Access to more than 100 certification, designation and licensing courses
- Career advancement opportunities
