**Title:** Student Java Programmer Internship

**Pay:** $11-$13/hour

**Company:** Scholarships@UW-Madison Team – Office of Student Financial Aid (333 East Campus Mall, Suite 9701) – [https://finaid.wisc.edu](https://finaid.wisc.edu)

**Hours:** 10 to 15 hours per week during semester and 40 hours per week during summer

**Description:** The UW-Madison Office of Student Financial Aid is looking for a Student Java Programmer to work on the campus scholarship system, Scholarships@UW-Madison. Initial work will be bug fixes and minor enhancements to become familiar with the system before moving into large-scale development and maintenance. The development work is primarily Java and SQL. The candidate must have worked in an integrated development environment as well as be proficient with Java and databases. This is an excellent opportunity to learn web software engineering skills as part of a dynamic team in a fun, fast-paced, and professional work environment, right here on campus.

Preference given to underclassmen (Freshmen or Sophomore students) and students who are available for summer employment, but both undergraduate and graduate students will be considered.

**Apply:** Please send a resume with professional or staff references to Keith Brown at keith.brown@wisc.edu and list "Student Java Programmer" in the subject line by Monday, September 19. Please indicate your expected graduation date and list all professional experience and relevant coursework.
