Software Engineer

Who We Are

Tata Consultancy Services is an IT services, consulting, and business solutions organization that delivers real results to global business, ensuring a level of certainty no other firm can match. As a campus hire at TCS, you will have the opportunity to work for a global company at the forefront of a rapidly expanding field. TCS continues to grow faster than the industry average, ensuring that throughout your career, you'll have constantly expanding opportunities for personal and professional growth. TCS offers an environment that allows you to explore and map out a dynamic career path tailored to your personal goals. You'll also find a supportive community of colleagues working together to positively impact our company, our clients, and our careers.

Why Join TCS

By becoming a TCS employee, you can be certain that you are joining a world-class team of over 277,000 of the world’s best-trained IT consultants in forty-four countries worldwide. Generating revenue of $11.67 billion for the fiscal year ending March 31, 2013, TCS consultants maintained a 99% retention rate among more than one thousand clients, including:

- 49 of the top 100 Fortune 500 US companies
- 7 of the top 10 Fortune 500 US companies
- 6 of the top 10 Fortune Global 500 companies

Our world-class clients include:

- Avis Group
- Electronic Arts
- HP
- Microsoft
- Prudential
- British Airways
- Ferrari Scuderia
- ING Group
- Motorola
- Sony

In addition, TCS offers exclusive opportunities to train in our advanced facilities, working with diverse and cutting-edge technologies, while gaining both domestic and international experience and exploring multiple career paths.

“...The fact that I’m able to play so many different and yet critical roles is what continually re-energizes me. In a week, I might put on a suit for a VIP client visit to our Delivery Center; I could buckle down and solve a challenging technical problem; another day I will spend giving an impromptu demo on a technology powering our office’s internal portal, and I could close out the week working on an internally-driven project in a completely different framework ... increasing my own skills and developing something truly innovative.

All of this goes on while I work on a project with team members and managers on the other side of the world, who will always be willing to share a completely new and unique perspective to solving a problem, and who really drive the value that we create here at TCS.”

Stephen
Ohio State University, Class of 2009

Join TCS and experience certainty in your career.
**Training**

Joining the TCS team offers you an exclusive opportunity to start your career and master your software development skills by training in our advanced facilities at our Global Delivery Center (GDC) in Milford, Ohio.

The Initial Learning Program (ILP) is a fully-paid, comprehensive training program that includes a TCS orientation, Product Development Life Cycle training, Case Study Implementation and Project Integration courses, inter-cultural effectiveness workshops, and additional technical training specific to the needs of our client partners.

After completing the training program, Software Engineers join their onsite teams to work on pre-selected assignments with clients who offer a variety of medium- or large-sized projects. With clients located across the US and globe, TCS can offer great flexibility in work location, excellent career advancement, and a variety of opportunities. TCS’ mentoring, career development, and on-the-job training ensure a smooth transition into your professional life and orient you to our culture, values, vision, and mission.
