Visiting Professor for CIS

DESCRIPTION OF JOB:

The Computing & Information Sciences (CIS) Department in the School of Arts & Sciences at Edgewood College invites applications for Visiting Professor Position at the rank of Assistant or Associate Professor for the spring semester or 2016. This position is a one semester position which may be extended for another academic year. The successful candidate will be given chance to apply and first consideration for the tenure-track position in CIS department which is intended to be filled in the Fall of 2016.

Successful candidates will have a demonstrated commitment to promoting diversity, inclusion, and multicultural competence in an educational and work environment and must be willing to contribute to the College’s strategic plan of inclusion.

Responsibilities:

Primarily, the candidates will teach undergraduate level courses, in the traditional, semester based format, and/or as part of the returning adult accelerated degree program. The candidates must also be active in service to the department and the College. Each CIS faculty member is expected to collegially contribute to the growth of the computer information systems program through appropriate service activities in community outreach, industrial interaction and academic governance. Applicants whose work incorporates a global perspective and a commitment to diversity in higher education are particularly encouraged to apply.

JOB QUALIFICATIONS

Necessary Education or Work Experience:

- ABD or earned doctorate in Computer Science, or Computer Information Systems, or a related discipline.
- 3 years of relevant industry experience.
- Demonstrated ability to teach using techniques that incorporate technology into the classroom experience

Preferred/Desired Qualifications:

The following are required for the position: Doctoral degree, ability to teach and interest in teaching at the undergraduate level, including supervision of student projects and development of curricula; experience in the development of theory or methods for systems development, and/or software engineering including acquisition, processing, and application of relevant technologies; peer-reviewed publication record, and a history of successful leadership in developing web enabled, object oriented systems, employing project management standards.

Industry and/or academic experience in two or more of the following areas:

- Network Management and Security
- Systems analysis, design & implementation (with experience using OOAD and UML)
- Software engineering.
- Web development with database backend. Mobile Development.
- Project management (with experience using PMI standards and/or Agile Frameworks)
- Projects that involve E-Commerce and/or ERP solutions

Additionally, the successful candidate must demonstrate:

- Ability to work with student organizations
- Experience working with a diverse learning population
- Interest and experience in curriculum design and innovative use of technology in education
Other Qualifications:

Demonstrate multicultural competence – the awareness, knowledge, and skills needed to work with others who are culturally different from self in meaningful, relevant, and productive ways.

The candidate must actively support the mission of the college by working with faculty, staff and students to share in our core values - truth, compassion, justice, partnership, and community.

Disclaimer:

The above statements are intended to describe the general nature and level of work being performed by people assigned to this position. They are not intended to be an exhaustive list of all responsibilities, duties and skills required of personnel so classified.

A completed application will consist of:

1. a cover letter that describes the candidate’s teaching and research experience and interests and that addresses the duties and qualifications articulated in the position description;
2. a curriculum vitae comprised of at least those elements specified on the application form and including the names, titles, addresses, and telephone numbers of at least three individuals who can speak to the candidate’s potential for success in this position;
3. a transcript showing highest degree earned (an official transcript will be required of finalists)

Finalists for the position will be required to arrange three letters of reference sent to us. The position is open until filled. First consideration will be given to completed applications received no later than October 15, 2015. Early response is encouraged. Please address all nominations, inquiries, requests for application forms, and application materials to the address below.
