Title: Programming research assistant

Wage: $10.00-$15/hour

Job Description: The University of Wisconsin. Department of Surgery is looking for an undergraduate or graduate programming assistant. Applicants must be able to work at least 10 hours per week during the school year and up to full-time during the summer. An ideal candidate would have a science background, a passion for programming or medicine, and a desire to work independently. Programming assistants should have an interest in image analysis and signal processing, and have familiarity with MATLAB. Wage is negotiable depending on experience.

If you are interested in this position, please e-mail a resume to Bill Calawerts at jiang_voicelab@yahoo.com by August 30th. Please include the following information: GPA, standardized test scores (ACT/SAT, GRE, MCAT), major, work availability, year in school, research experience, grade report, a writing sample (at least 500 words, preferably science based) and any other information you deem pertinent.
