Summit Credit Union has an exciting opportunity for a Computer Science Undergrad to join our IT team as a Summer Intern. We are looking for students strongly motivated to pursue opportunities to advance academically, professionally, and personally within the IT field.

During this summer experience students will participate in real work experience with hands on learning and application of technical and business skills. Explore technology and business process, learn to deliver high quality customer service and communicate effectively about technical topics in an easy to understand terms as well as utilize a wide array of technologies and platforms providing experience to both mid and large sized companies.

This will be a paid internship and Summit is willing to be flexible with the hours and schedule.

During the Internship education opportunities include:

- Basic computer skills
- Basic software skills
- Basic administration skills
- Logical troubleshooting skills
- ITIL process
- Basic software management
- Overview and basic information security skillsets
- Basic networking skills
- Customer service in a technical business unit
- Basic systems maintenance and upkeep skills

To gain experience and knowledge the intern will rotate through multiple teams of the IT department.

Candidates may be assigned to assist with projects or other initiatives if appropriate. If a successful candidate demonstrates sufficient technical competencies and has specific area interest modification to the rotation schedule could be accommodated or expanded.

Structured Rotation and Progression
