INTERNSHIP - bswing Web Developer intern

Position Summary

The bswing Web Developer Internship program is designed to give students “real world” experience by working side-by-side with the technology group to develop rapid prototypes, custom applications, technical specifications, and content management and e-commerce solutions.

We’re a small shop with a fun and diverse set of clients, which guarantees you'll get exposure to a wide range of projects and technical challenges. We want to make sure you get the most out of your internship, which means we will pair you with a mentor who shares your career interests and who will work closely with you to develop your skills.

This is a paid, full-time internship, typically lasting 6 to 12 weeks, with potential for a longer-term position.

What you’ll be working on:

- You'll join a project team and will begin by shadowing and assisting the technology lead; our goal is to have you assume a key developer role on a project within a few weeks
- Over the course of the internship, you will...
  - Create detailed documentation and functional specifications (e.g., instructions, defect reports, flow charts)
  - Develop HTML/CSS/JavaScript client applications for mobile and web
  - Help build and maintain server applications
  - Get inspired by well-designed code
  - Collaborate with design team on how to craft effective and engaging interactive experiences
  - Learn how projects move through the process from proposal to design to development to delivery
  - Hang out on our roof top patio and tour the amazing North Loop neighborhood

What we’re looking for:

- Junior or Senior or recent graduate of a Computer Science, Software Engineering, Computer Engineering, CIS, MIS, or related degree
- Experience working with HTML, CSS, JavaScript, media queries, and other presentation layer technologies
- Familiarity with content management systems, such as WordPress, Drupal, Kentico, and SiteCore
- Strong interest in learning
- Promising technical aptitude
- Appreciation of good design
- Great communication skills
- Familiarity with object-oriented programming is a plus

Please send a note and resume to jobs@bswing.com. If possible, please include links to examples of your work.
