Role: Humana's Summer 2018 IT Internship Program
Location: Green Bay, WI or Louisville, KY
Scope: This internship program is for current college students only. The internship will take place during the summer of 2018. This is a paid position and housing is provided.
Work Eligibility: Humana does not provide visa sponsorship or OPT/CPT for our summer internship. For example, this would mean you are either a U.S. citizen, a Lawful Permanent Resident, or in Refugee or Asylee status and do not require visa sponsorship to be eligible.

Overview:
Humana Inc., headquartered in Louisville, Ky., is committed to helping our millions of medical and specialty members achieve their best health. Our successful history in care delivery and health plan administration is helping us create a new kind of integrated care with the power to improve health and well-being and lower costs. Our efforts are leading to a better quality of life for people with Medicare, families, individuals, military service personnel, and communities at large.

The Humana IT Organization is currently seeking interns who are interested in working in the Louisville, KY or Green Bay, WI locations for 12 weeks during the Summer of 2018 (Late May to Early August) Humana is experiencing an exciting time of growth. A key ingredient to our success has revolved around our IT efforts. We have adopted Agile methodologies for development, and we use a wide variety of exciting industry technologies (web, mobile, social, integration, analytics, security, etc) to drive innovation and build software solutions while focusing efforts on strategic partnerships. Throughout this program, you will apply what you have been learning in the classroom to real-world situations. As an intern, you will be placed on an Agile team, receive technical and business training, work towards the completion of a project/solution for a business partner or IT team, and grow your knowledge in the healthcare industry. Our summer interns will be exposed to the latest technologies and practices within a Fortune 100 company.

Past internship classes have built solutions using .NET using C#, MVC4, HTML, JavaScript, jQuery, CSS, SQL, Android, and/or iOS. Other technologies and software used were RESTful and Web API Services (WCF and SOAP), Java, XML, AJAX, MEF, PRISM, SMS, RSS, JSON, Hadoop, BI Tools, TFS, SQL Server Management Studio, Eclipse, Beyond Compare, Fiddler, and MS Visual Studio. Solutions developed by past and current interns are accessible by over 54,000 Humana associates. In addition to normal application delivery, there are opportunities within Security, Data, and Analytics areas.
