We are looking for an experienced Java Engineer to join Sentry Insurance’s team of Software Engineers. You’ll be working from our Madison, WI office on our Personal Lines applications. As an engineer you’ll implement and maintain applications, interactive web and mobile solutions, and web services to exceed our customer, broker, and associate needs. Our applications provide e-commerce solutions for over 30,000 independent agents and an unlimited number of customers. In addition, we embrace agile application development methodologies to increase delivery speed, reduce cost, improve customer satisfaction, and increase associate engagement.

What You’ll Do

As a Software Engineer, you will interact with end users, Sentry Associates throughout the company, and others such as software providers and consultants to develop robust and user-friendly j2ee solutions. The position offers other exciting opportunities:

- Assisting in the estimation and planning process
- Use Agile development methodology to quickly deliver applications that are focused on a positive user experience
- Designing, coding, testing and debugging while maintaining programs and systems
- Evaluate new technologies and techniques to incorporate into our products and processes
- Responding, analyzing, and formulating a solution to system errors to avoid interruption of service to users
- Working with a high level of technical proficiency in software development languages and program control facilities necessary to support a specific area of systems responsibility

What it Takes

- Bachelor’s Degree or equivalent education or experience in Web Development, Computer Engineering, Computer Science or related fields
- The ability to learn new technologies independently
- Excellent communication, facilitation, documentation, and interpersonal
- Experience with some or all of the following technologies is highly desired; Guidewire platform, Java 7/8, Gosu, Eclipse IDE, Struts2, jQuery, Handlebars, Spring framework, Hibernate, Microsoft SQL Server, jUnit, Mockito, JAX-WS, JAX-RS, Service-Oriented Architecture, CSS3, HTML5, Google Analytics

What You’ll Receive

We offer an outstanding array of benefits for our associates, including:

- Competitive Compensation
- Group Medical, Dental, Vision and Life benefits
- Generous Paid-Time Off - including Company Holidays
- 401k plan with a dollar-for-dollar match on your first six percent – immediate vesting
- Access to more than 100 certification, designation and licensing courses
- Career advancement opportunities
