Attention Engineering and CompSci December graduates!

TDS Telecom in Madison, WI is looking for smart, driven individuals who share our passion for technology. Bring your knowledge of Linux and/or networking and we will provide you the opportunity to apply and expand your skills while directly affecting the technology that powers the products and services of TDS. We value personal development and highly-motivated individuals.

As part of the team you will participate in the design, delivery, and operation of TDS solutions. We focus primarily on engineering and supporting solutions that directly provide service to our customers. These services range from traditional ISP offerings like DNS and NTP to custom solutions like a system to provide cover art images to set top boxes for the TDS TV product.

**This position is open from a Systems Administrator I, Systems Administrator II or Systems Engineer candidate. Requirements for each position are listed in the qualifications section. We will assess applicants based on skills set and years of relevant experiences.**

This position will work with cutting-edge technologies, to develop and support robust applications and platforms in our data centers across the country. You will:

- Work on a team where we value open source
- Work in a rapidly growing environment with thousands of servers and appliances
- Help us further automate our infrastructure with tools like Puppet, Ansible and CloudForms
- Script using Bash, Perl, or Python
- Work on a team where we deploy solutions highly available and geo-diverse by default
- Work with a large software development teams to design and deploy custom software
- Work with Service Provider networking teams to make applications and network work together as part of an overall solution (think anycast, etc)
- Work with core technologies including Linux, Load Balancing, Virtualization, Identity Federation SAML/OAuth, LDAP, DNS, NTP, etc
- Help troubleshoot issues that span applications, systems, firewalls, and other network devices

You will make a difference on this team!
